Sani Transition (peyarchi) Puja Tuesday December 16, 2014

Sani (Saturn) transit from Thula Rasi to Vrichiga Rasi on 16th of December 2014, Tuesday at 2:43 PM.

The planet Saturn is called as Universal Task Master and its effect is felt more than any other planets influencing us. This might be because of his presence of two and half years in one house or rather by the nature of its slow movement. In reality Saturn is not harmful as every one considers. He represents discipline, responsibility and integrity. If he is pleased, he showers the native with Success and Happiness. Sage Parasara, has linked Lord Shaneswara with Brahma.

Brief History: Lord Sani is the son of Surya and Chaaya devi. So he is also called as Chaaya putra. He is the step brother of Yama, the God of death. Sani's wife is Neela and he has two children named Maandi and Gulikan. Lord Shani is known as the greatest teacher and well wisher for the righteous as well the greatest punisher for those who follow the path of betrayal, back stabbing, corruption and un-justice. He is also known as the lord of the masses and his blessings are necessary for popularity in any field.

Lord Sani does not affect the native who worship the navagraha regularly and Lord Hanuman. If the native has a weak sani in his or her horoscope, they should donate liberally to the poor, they should respect and serve elders. If they perform these things they will see improvement during their Saturn influence.

The best remedy to this Saturn transit is worshipping Lord Ganesha and Lord Hanuman on Saturday
